THE DAILY BULLETIN.

Pledged to neither Sect nor Party,
But Established for the Benefit of All.

FRIDAY, FEB. 24, 1893.

The decision of Judge Frear epitomized elsewhere seems to ignore altogether what appeared to be one of the strongest points made by counsel for the habeas corpus petition. That is, the claim that, in recent times at least, a Legislature is not authorized to punish contempts against itself committed outside of its presence.

Commissioner Carter is put on record as against begging for annexation at any price. It is only to be hoped that the Commission, in its desperate position of being sent after annexation or nothing from Washington, has found out that all the American statesmen wanted from it were concessions. Thus the sugar bounty went by the board.

Mr. Neumann, in an interview published in the San Francisco Examiner, emphatically denies a report that he was empowered to sell out the Crown's rights. The story that he was going on with "agreements in duplicate" and "agreements in triplicate" to sell the throne of Hawaii to the United States he denounced as "all bosh." He said: "The Queen is merely asking for her right—to be reinstated as Queen. She is asking for no money, is not bartering her rightful crown, and merely asks of the great Government of the United States that justice be done her in the matter."

When the Provisional Legislature repealed the Lottery Act of the Session of 1892, it forgot to re-enact the laws making lottery gambling criminal, which were repealed by that Act. This slip is being taken advantage of by counsel for prisoners held under those laws. It has been decided often—the last time only recently—that the repeal of a law that repealed other laws does not bring these other laws into force again. How the Provisional Legislature remembered this in the case of opium and forgot it in the case of lotteries shows a decided lapse of carelessness on the part of that body. Respectfully submitted.

SPOILISM REVIVING.

One of the things at which the Councils took grievous offense against the BULLETIN was a statement that they were finding salaried places for Councillors. There was only one instance existing at that time, it was shown, of such a policy. At the same time there was no doubt then of the longing of more than one member to become comfortably situated before the temporary situation ended. We firmly believe that it was nothing but the BULLETIN's drawing attention to this indication of patriotism not wholly unselfish which produced a pause in which there have been more disappointments than appointments. A fresh beginning has now been made in the appointment of a Councillor to the office of Superintendent of Water Works. There are known to be other aspirants for billets remaining in the Advisory Council, and we may expect to see them one by one satisfied until the places begin to be filled from Washington. A renewal of the spoils policy just after the news from Washington had encouraged the belief that everything is now settled there, so far as mere annexation of this country is concerned, does not tend to increase the respect of the community for the Government. It would have been more straightforward and manly, had the taking of a hand in the revolution been understood to earn speedy personal rewards, if the apportionment had been pushed along from the start. Then United States public opinion would have had the advantage, in weighing and assorting the conditions of the revolution, of having one more description of motive to throw into the count.

Staggered "Truth."

EDITOR BULLETIN:—"Truth," the very much wayward and scycphantic correspondent of the Advertiser, throws up the sponge and crawls back to his hole with a snarl, like all "Small Souls" when thrown off their balance. The effect of truth physically and morally upon such characters staggers them, and acts upon them as a poison. Charitably speaking, no doubt that class of people are more to be pitied than despised. As "Truth" has bid me "au revoir" I will observe that there is a considerable number of folks living in Uncle Sam's domains, besides President Harrison and Secretary Foster, who will see that straight justice is given to Hawaii. This is still the honest conviction of your humble servant, "the argument of the Advertiser's correspondent and all others of his ilk notwithstanding." VERITAS PREVALEBIT.

Their Own Side Objects.

EDITOR BULLETIN:—I was very much surprised to hear that such a good and faithful servant to the public as Mr. White, Superintendent of Water Works has been, should be discharged from office, (no cause assigned). It is a shame and a disgrace that the public welfare should be thus sacrificed to make place for favorites of party. I am a member of the Reform Party, and have stood by my party from 1887 to the present time, but such a flagrant injustice to the public as this is should not be allowed. To the victor belongs the spoils system does not always pay, and may not in this case. Whatever a person's politics may be, if he proves to be a good and efficient servant to the public, I say in such cases leave politics entirely out of the question. REFORMER.

A Suggestion.

EDITOR BULLETIN:—Now that the representatives of the leading newspapers of San Francisco are here, to obtain information on the annexation question, would it not be a good move for our citizens to assist these representatives in getting a plebiscite of the people on this great question. I am informed that one of these gentlemen was overheard to ask if such a thing could be done. It would either prove or disprove the statements made abroad, that nine-tenths of the population were against annexation. CITIZEN.

Mr. Albert Favorite, of Arkansas City, Kan., wishes to give our readers the benefit of his experience with colds. He says: "I contracted a cold early last spring that settled on my lungs, and had hardly recovered from it when I caught another that hung on all summer and left me with a hacking cough which I thought I would never get rid of. I had used Chamberlain's Cough Remedy some fourteen years ago with much success, and concluded to try it again. When I had got through with one bottle my cough had left me, and I have not suffered with a cough or cold since. I have recommended it to others, and all speak well of it." 50 cent bottles for sale by all dealers. Benson, Smith & Co., Agents for the Hawaiian Islands.

COURT CHRONICLE.

A Prisoner Gets Himself off—Release of Chinese Charged with Unlawful Attempt to Land.

The verdict of the jury, in the ejection case of James I. Dowsett vs. Maukela and others, was for the defendants. They had dwelt long on the land and never been asked for rent. C. Brown for plaintiff; C. W. Ashford for defendant.

Provisional Government vs. Ah Wo, assault with intent to commit an offense. This case was tried today. Ah Wo being his own lawyer, when a foreign jury rendered a verdict of not guilty. Deputy Attorney-General Brown for the prosecution.

Provisional Government vs. Peter Quinn, maiming. Defendant was tried for biting off Thomas Mullen's ear and conducted his own defense. A verdict of guilty was returned.

Nolle prosequi have been entered by the Government in the following cases:

Chow Yee, assault and battery.

Ah Fook and Ah You, conspiracy second degree.

Chin Hee and seven others, Ah Hop and three others, Ah Chong and 38 others (51 in all), attempting to land at the port of Honolulu. These are the Chinese who entered the country with children's return permits.

MORE OPINION.

Some Sober Second Thought That Happened to be First.

"TOO PREVIOUS."

There is something almost amusing in the manner in which usually discreet and dignified gentlemen in Washington are "tumbling over each other," in their zeal to annex the "cannibal islands" to our domain. The Commissioners appointed by the provisional government have not arrived in the national capital. But a host of members of Congress appear to be filled with enthusiasm over the fact that these gentlemen are on the way, and to be ready to do all that may be asked and more. But the sober common sense of the people will see in all this a striking example of what is aptly termed being "too previous." It does not appear reasonable or probable that, in the end, our government will annex the Hawaiian Islands to our republic. But, whatever may be the final outcome, our people would like to know certain things, of which they are now in ignorance. For instance, information is desired on the question of the exact authority on which these Commissioners come, whether the great body of the people on the islands accept the results of the "revolution," and various other points of interest.—Grand Rapids, Mich., Democrat, Jan. 31.

The revolution in the Sandwich Islands and the application to be admitted as a part of the United States by a few of the people of those islands, seems to have knocked all sense out of a lot of would-be statesmen. What the United States needs of a negro baby 3000 miles from home is more than anybody of sense can tell. A protectorate which will insure these islands as neutral ground for the commerce of the world would be reasonable but those who want to make it American territory are certainly not safe councilors. We hope Congress will not lose its head as the California legislature seems to have done.—Paxton, Ill., Register, Feb. 1.

If it is true that England would oppose the annexation of Hawaii to the United States that is one good reason why it should not be done. There is a limit to the extension of the idea that we should always do just what England does not want us to do. This is not a political question.—Milwaukee Journal, Jan. 31.

WHAT MIGHT BE.

Proposal to Make a Politician of San Francisco Ruler of Hawaii.

Some months ago the BULLETIN printed a cartoon showing a New York ward heeler with his carpet bag packed, ready to depart and be Governor of Hawaii. As California has given out symptoms of wanting to claim supremacy in the running of Hawaii, perhaps the following piece of humor published by the Examiner may not prove to be all a joke:

"The Board of Supervisors yesterday received a singular communication which will not occupy many minutes' consideration. The letter is as follows:

"To the Honorable Board of Supervisors of the City and County of San Francisco:

"WHEREAS, The throne of the kingdom of Hawaii is now vacant, there being no King or Queen to fill the same; and

"WHEREAS, The Hon. Jeremiah F. Sullivan has for years been rising in the political firmament, being first School Director, then Judge and twice candidate for Supreme Judge, then candidate for Chairman of the Democratic State Central Committee, also candidate for member of the National Committee, then candidate for the United States Senate, and finally BOSS;

"Therefore, We petition your honorable body to formally ask the Sandwich Islands to accept the Hon. Jeremiah F. Sullivan as King or Queen, your petitioners understanding that he is a candidate for one or both of these positions. We further petition your honorable body, after such action is taken, to by resolution declare the office of Boss vacant and thereafter formally and by resolution appoint John Joseph Dwyer, now Assistant Boss, to the office of Boss, and thereafter declare the office of Assistant Boss vacant, and thereafter appoint to the position of Assistant Boss Samuel H. Daniels, now doorkeeper and janitor of the Advisory Committee. Respectfully,

"JOSEPH NORTON,
"SIMON LEY,
"ALFRED WYON,
"JOHN JONES,
"ED. E. SMITH,
"R. A. DALY."

THE JAPANESE CRUISER.

Further Notes on the Handsome Visitor.

H. I. J. M. S. Naniwa, which arrived yesterday, fifteen days from Japan, and anchored between the Kongo and Boston, is the most formidable warship in the Pacific outside of H. B. M. Ships Warspite and Royal Arthur. She carries two 10-inch guns, one on her bow and the other on her stern, which are the largest that have ever graced a cruiser in Hawaiian waters. Besides these she has six 6-inch guns placed in turrets on both sides of the vessel, twelve rapid-firing machine Nordenfledt guns and four torpedo tubes.

The Naniwa is a twin-screw steel cruiser, her decks also being of 16mm. protective steel. She was built in England.

The wharves were crowded with people yesterday afternoon to see the formidable cruiser. This is the Naniwa's first trip outside home waters, and according to the officers she behaved well. Her officers and men are all trained seamen. The officers of the Kongo and Naniwa exchanged courtesies shortly after the arrival of the latter.

"August Flower"

For Dyspepsia.

A. Bellanger, Propr., Stove Foundry, Montigny, Quebec, writes: "I have used August Flower for Dyspepsia. It gave me great relief. I recommend it to all Dyspeptics as a very good remedy."

Ed. Bergeron, General Dealer, Lauzon, Lewis, Quebec, writes: "I have used August Flower with the best possible results for Dyspepsia."

C. A. Barrington, Engineer and General Smith, Sydney, Australia, writes: "August Flower has effected a complete cure in my case. It acted like a miracle."

Geo. Gates, Corinth, Miss., writes: "I consider your August Flower the best remedy in the world for Dyspepsia. I was almost dead with that disease, but used several bottles of August Flower, and now consider myself a well man. I sincerely recommend this medicine to suffering humanity the world over."

Hawaiian Hardware Co., Ltd

Saturday, Feb. 18, 1893.

It's a remarkable fact that there are men who would rather fight than come out winner in a newspaper prize contest. And the ugly feature in the whole business is the encouragement these belligerents receive from outsiders. For the past year or two New Orleans has been the rendezvous for "pugs" who wanted to contest in the arena. Honolulu has been singularly free from any such objectionable sport. During the past month these islands have been in a state of ferment over a little affair which took place about the middle of January, but we have not seen an instance where men directly interested, or effected by the change, thought it necessary to spoil each others faces. Outsiders who scarcely know what brought about the change believe that their first duty, after imbibing liquid with a keen edge, is to stand side by side at the bar and make themselves hoarse singing, "Yankee Doodle" and "Rule Britannia" and then get mad because the two airs don't harmonize. If the matter would end with the rival singers getting real mad no serious results would follow, but when a lot of bleachers in the outer circle sic the British bull dog on the North American cayuse some body's sure to get kicked. Unfortunately it seldom happens to be the bleacher in the outer circle.

The respective crews of the Garnet and Boston will remember the little episode in Chili where Boatswain's Mate Rigin lost his life. The row started not unlike the rumpus which took place here on Friday and it required private subscriptions from Mr. Rigin's friends to pay for the removal of his body to his former home. Besides, his death caused serious international complications. Just now the Hawaiians object to any new features appearing on the political horizon, nor are the people prepared to contribute toward the funeral expenses of foreigners who come down here and try to palm off "Rule Britannia," "Yankee Doodle" and "Sweet Violets" as late musical compositions.

Last week we mentioned the new glassware in red and white; they are going out of the store with marvelous rapidity. We have never shown anything half so beautiful for the money. There are more of them, perhaps a dozen sets left. If you want to add to the beauty of your table service take one home with you.

The southerly rain winds are over for the present and the roads and lawns are drying up; another fortnight, if care is not taken, the lawns will turn yellow with dry rot. Our rubber hose is the best and our reels the most substantial in the city. If you want your grounds to look like velvet carpet the means of making it so are at your command. You can have our assistance in the way of reel, hose or a lawn mower for the asking.

For trimming the grass at the walks you will find a pair of sheep shears the most convenient thing—a lawn mower will not do this part of the work. The shears are convenient too, for trimming the grass around the rose bushes.

The "Delusion" mouse trap is built on the same principle is the famous French rat trap; and are quite as effectual for the smaller game. The other day the buyer of a large commission house came in the store to buy a trap on an order. When we were showing them to him we found that a mouse had been caught in the trap without its having been set for him. They're economical in the matter of bait.
